## VirtualBox:

Note: 1. How is your OVA backup strategy? Daily? Weekly? Once only?  
2. Keep a **time record** of the following items.

Item	Task	Time
1.	Change the " <b>root</b> " password.	
2.	Create a new directory. Eg. " <b>week04/</b> ". Enter that new directory.	
3.	Create a new " <b>program1.c</b> " file to print " <b>Hello program1</b> ".	
4.	Create a " <b>Makefile</b> " for the program1 above.	
5.	Create a new " <b>program2.c</b> " file to print " <b>Hello program2</b> ".	
6.	Update the " <b>Makefile</b> " for the program2 above.	
7.	Modify the programs above so that <b>program2</b> will always print after <b>program1</b> .	
8.	Add file " <b>queue.txt</b> ", modify <b>program1/program2</b> so that the print sequence depends on the order of the program names in the " <b>queue.txt</b> " file.	
9.	Generalize for <b>program1, program2, ..., programN</b> .
